

REMARKS

Claims 57-64 have been added to include claim directed to computer readable media that encode the instructions executed by a platform like that in claim 11. It is submitted that no restriction should be issued, because computer readable medium claims were previously recited, but not to the embodiment to which claim 11 was directed. Entry of claims 57-64 and reconsideration of the claims is respectfully requested.

There being no further outstanding objections or rejections, it is submitted that the application is in condition for allowance. An early action to that effect is courteously solicited.

Summary

It is submitted that the references cited by the Examiner do not teach or suggest the features of the present claimed invention. Thus, it is submitted that claims 1-18 are in a condition suitable for allowance. Reconsideration of the claims and an early Notice of Allowance are earnestly solicited.

Finally, if there are any formal matters remaining after this response, the Examiner is requested to telephone the undersigned to attend to these matters.

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,
